```
package com.example.simpleinterest;

import androidx.appcompat.app.AppCompatActivity;

import android.os.Bundle;
import android.view.View;
import android.widget.Button;
import android.widget.EditText;
import android.widget.TextView;

import com.example.simpleinterest.R;

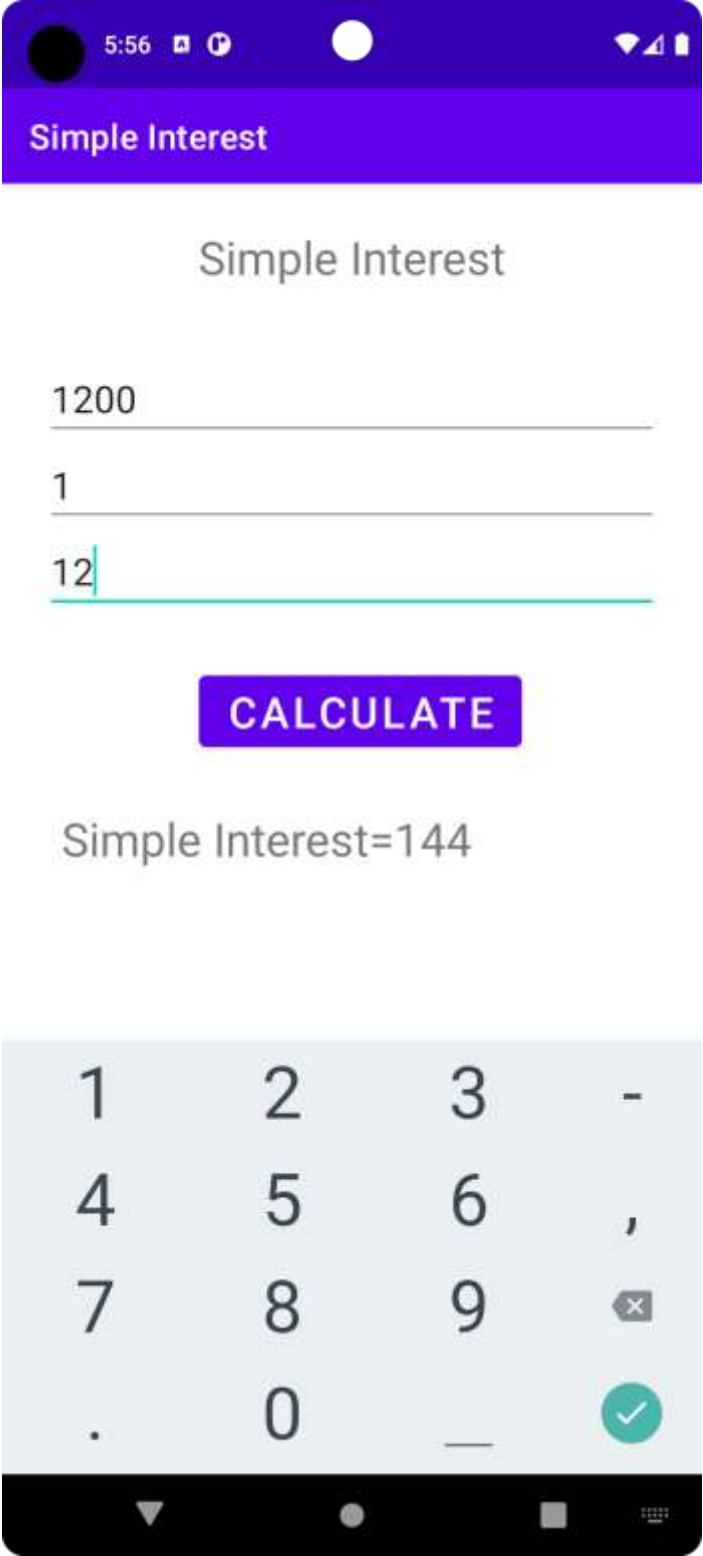

public class MainActivity extends AppCompatActivity {

    EditText principal, time, rate;
    TextView result;
    Button cal;

    @Override
    protected void onCreate(Bundle savedInstanceState) {
        super.onCreate(savedInstanceState);
        setContentView(R.layout.layout);
        principal = findViewById(R.id.principal);
        time = findViewById(R.id.time);
        rate = findViewById(R.id.rate);
        result = findViewById(R.id.result);
        cal = findViewById(R.id.cal);

        cal.setOnClickListener(new View.OnClickListener() {
            @Override
            public void onClick(View view) {
                int p,t,r,si;
                p =
Integer.parseInt(principal.getText().toString());
                t = Integer.parseInt(time.getText().toString());
                r = Integer.parseInt(rate.getText().toString());

                si = p * t * r / 100;
                result.setText("Simple Interest=" + si);
            }
        });
    }
}
```

OUTPUT

The screenshot shows a mobile application interface for calculating Simple Interest. At the top, there is a status bar with the time 5:56 and various icons. Below the status bar is a purple header with the text "Simple Interest". The main content area has a light gray background with the title "Simple Interest" in a large, bold font. There are three input fields: the first contains "1200", the second contains "1", and the third contains "12" with a green border. Below these fields is a purple button labeled "CALCULATE". Under the button, the result "Simple Interest=144" is displayed. At the bottom of the screen is a numeric keypad with digits 1-9, 0, a decimal point, and a minus sign, along with a green checkmark button.

        super.onCreate(savedInstanceState);
        setContentView(R.layout.layout);
    }
}
```

OUTPUT

The image shows a mobile application interface for entering book details. At the top, there is a status bar with a black background, displaying the time 6:41, signal strength, and battery level. Below the status bar is a purple header bar with the word "Book" in white. The main content area has a white background and features a central illustration of an open book. Below the illustration, the text "Book Details" is displayed in a large, dark gray font. There are four text input fields, each with a light gray placeholder text: "Enter Book Name", "Enter Author Name", "Enter Publication", and "Enter Book Price". The "Enter Author Name" field has a red underline. At the bottom of the form is a red rectangular button with the word "SUBMIT" in white. The bottom of the screen shows a black navigation bar with three icons: a back arrow, a home circle, and a recent apps square.
